Compact Ratcheting Cable Cutter

This compact Ratcheting Cable Cutter allows for one-handed use of the ratcheting mechanism, so the other hand can position the cable to ensure proper cut. High-Leverage ratchet mechanism cuts copper, aluminum and communication cables leaving no burrs or sharp edges. The patented two-step ratchet mechanism requires fewer strokes per cut. A quick-release lever opens blades easily in every cutting position so the cable can be removed before the completion of the cut. Steel cutting blades are hardened for lasting strength and sharpness. Plastic covered handles with hand guards provide a comfortable, firm grip.

Specifications

Type:	Ratcheting Cable Cutter
MCM Maximum Cable Capacity (Copper):	600 MCM (300 mm²)
Overall Length:	10.25" (26 cm)
Weight:	2.7 lb (1.2 kg)
MCM Maximum Cable Capacity (Aluminum):	1000 MCM (500 mm²)
MCM Maximum Cable Capacity (Communication Cable):	2-1/16" (52.4 mm)
Handle Color:	Red
