Micro HDMI to VGA Adapter Video Converter with Audio for Smartphones/Tablets/Ultrabooks, (M/F), 6-in. (15.24 cm)

MODEL NUMBER: **P131-06N-MICROA**

Micro HDMI to VGA adapter connects a tablet, Ultrabook or smartphone with a Micro HDMI output to a VGA monitor for 1080p video + audio.

Features

Micro HDMI to VGA Adapter Connects Your Smartphone or Tablet to a VGA-Enabled Display This low-profile Micro HDMI to VGA cable (M/F) instantly connects your tablet, smartphone, Ultrabook or other device with a Micro HDMI port to a VGA monitor or projector. It's a simple and inexpensive solution for converting the video signal from a Micro HDMI port for your existing VGA display, rather than spending time, effort and money upgrading to a new monitor.

Supports High-Definition 1080p for Video Presentations and Stereo Audio This Micro HDMI male to VGA female adapter is ideal for giving video presentations in conference rooms and classrooms or playing video for digital signage in crystal-clear 1080p. The six-inch (15.24 cm) cable supports video resolutions up to 1920 x 1200, including 1080p, as well as VGA cabling (for connecting a monitor) and 3.5 mm audio cabling (for connecting speakers) up to 100-ft. (30.5 m).

Plug-and-Play Operation Lets You Begin Watching Video Almost Immediately No external power is required, though a USB Micro-B port is included in the event you must connect the adapter to power. The lightweight unit is easy to carry in a pocket, purse, backpack or laptop bag for instant 1080p video where needed.

Highlights

- 6-in. (15.24 cm) Micro HDMI to VGA cable recommended for giving video presentations
- Supports VGA cabling up to 100-ft. (30.5 m), excellent for exhibiting digital signage
- Supports HD resolutions up to 1920 x 1200 (1080p) for crystal-clear video
- Plug-and-play operation allows you to set it up and begin using it immediately
- Small enough to carry in a pocket or laptop bag for instant 1080p video anywhere

Applications

- Connect a tablet or smartphone to a VGA projector in an auditorium or lecture hall for a video presentation
- Stream digital signage messages from an Ultrabook to VGA displays in an office or conference room

System Requirements

- Source device with Micro HDMI connector
- Display device with VGA HD15 connector and audio speakers

Package Includes

- P131-06N-MICROA Micro HDMI Male to VGA Female Adapter Cable, 6-in. (15.24 cm)
