Converter RS232/485/422 to 10/100Base-TX with ac/dc adapter for MS

code: MP023

Converter RS232/485/422 to 10/100Base-TX including ac/dc adapter and terminator T485. Designed for several data loggers conencted via RS485 network for connection to the computer via Ethernet.

- maximum length of the entire cabling is 1200m and maximum 32 data loggers can be connected
- maximum communication speed of 115200Bd (download of memory in 4min 30s)
- all data loggers are accessed through a single IP address
- other Ethernet protocols can not be used (email, etc.)
- assistance of network administrator is required
- for remote access via the Internet must be made adequate security
- communication takes place through the utility software for data logger

Technical data
