18-Compartment VDV ProTech™ Transport Tool Case

Keeps connectors and tools organized - lightweight tool case features two separate levels of organization, with removable compartments for small parts and hand tools. It’s the best way to keep all your pieces right where you want them. The outer case of the VDV ProTech™ Transport Tool Case is built with the worksite in mind. The top compartment swivels to provide access to the lower compartment allowing you to see connectors and tools simultaneously.
