HDMI to VGA and Audio Adapter, 6 in. (15.2 cm), Black, TAA

MODEL NUMBER: **P131-06N-2VA-U**

HDMI to VGA and audio adapter connects a computer, laptop or Blu-ray player with an HDMI audio/video output to 2 VGA displays.

Features

HDMI to VGA and Audio Converter Splits an HDMI Signal to 2 VGA Displays at the Same Time This six-inch adapter cable instantly connects your computer, laptop, notebook, media player, MacBook, Chromebook, Ultrabook, Blu-ray player or other device with an HDMI port to two VGA monitors or projectors simultaneously. It features a male HDMI connector and two female VGA connectors, so you can continue using your existing VGA displays and cables without the expense of new HDMI monitors.

Supports High-Definition 1080p and Stereo Audio for Video Presentations This HDMI to VGA and audio adapter is ideal for giving video presentations in conference rooms and classrooms or playing video for digital signage in crystal-clear 1080p. It supports video resolutions up to 1920 x 1080, as well as HDCP, EDID and 3D. The HDMI audio signal passes through the adapter and splits to two 3.5 mm stereo jacks. LEDs next to each output port indicate at a glance when the adapter is transmitting a signal to the connected VGA displays.

Latching HDMI Plug Provides a Secure Connection The molded HDMI connector features special latches, which help prevent the adapter from becoming loose or accidentally dislodged from the source device and causing signal loss.

Plug-and-Play Operation Lets You Begin Watching Video Almost Immediately No software or drivers are required. The included USB Micro-B cable powers the adapter from a USB port on your HDMI source. The lightweight unit is easy to carry in a pocket, purse, backpack or laptop bag for instant 1080p video where needed.

TAA-Compliant for GSA Schedule Purchases The P131-06N-2VA-U is compliant with the Federal Trade Agreements Act (TAA), which makes it eligible for GSA (General Services Administration) Schedule and other federal procurement contracts.

Highlights

- Delivers HD picture quality at resolutions up to 1920 x 1200 (1080p)
- Adapter mirrors a single image on 2 VGA displays (does not extend an image)
- Latching HDMI connector prevents adapter from becoming accidentally dislodged
- Digital audio signal splits to dual 3.5 mm stereo jacks for playing rich, crisp sound
- Small enough to carry in a pocket or laptop bag for instant 1080p video anywhere

System Requirements

- Source device with HDMI connector and USB port
- Display device(s) with VGA HD15 connector

Package Includes

- P131-06N-2VA-U HDMI to VGA and Audio Adapter, 6 in., Black
- USB Micro-B cable, 3 ft.
- Owner’s manual
