Product Advisory

Issue Date: February 12, 2026

Change Type:

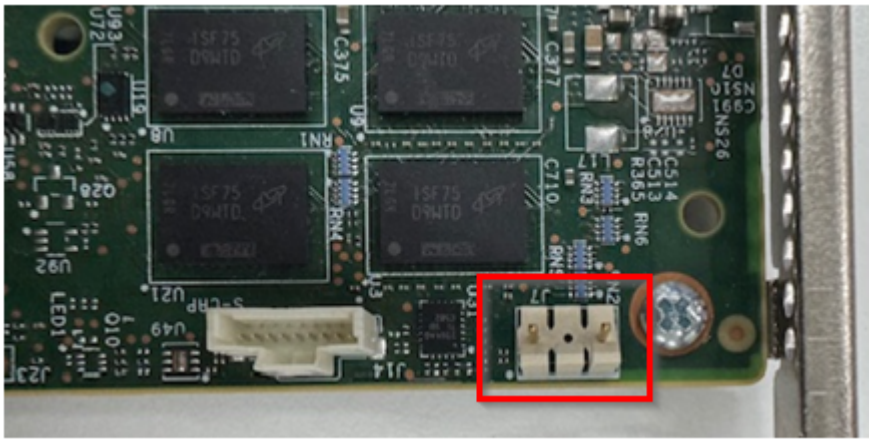

Deprecation of Legacy Feature

Parts Affected:

Part Number	Description
05-50077-01	9560-8i SINGLE KIT, 4GB, GA, 00
03-50077-01	9560-8i 4GB, GA, 00
05-50076-00	9580-8i8e SINGLE KIT, 8GB, GA, 00
03-50076-00	9580-8i8e 8GB, GA, 00
05-50077-00	9560-16i SINGLE KIT, 8GB, GA, 00
03-50077-00	9560-16i 8GB, GA, 00
03-50077-13	9560-8i 4GB, 07, GA
03-50077-37	9560-8i 4GB, 28, GA

Description of Change:

Aero generation MegaRAID controllers have the RAID upgrade key header still populated on the board. This key is a legacy feature that enables customers to field update the RAID features by applying a RAID upgrade key. This upgrade mechanism is no longer required since all firmware features are enabled by default. The header will be removed. The following picture shows the header (red box).

Effect of Change:

There is no change to form, fit, or functionality.

Effective Date of Change:

This update will be a rolling change and not indicated by a revision change. After April 1, 2026, this header will not be included on new manufactured boards. Actual shipment dates will depend on inventory and orders.

Please contact your Broadcom field sales engineer or Contact Center for any questions or support requirements. Please return any response as soon as possible, but not to exceed 30 days.
