10-Port USB Charging Station with Adjustable Storage, 12V 8A (96W) USB Charger Output, Schuko Power Cord

MODEL NUMBER: **U280-010-ST-CEE**

10-port USB charger keeps electronic devices, including smartphones, earbuds and smart watches, e-readers, and Micro-USB tablets at full capacity via USB connection. Neatly organizes the devices within its adjustable storage brackets while charging.

Description

Whether you're at home or in the office, the U280-010-ST-CEE 10-Port USB Charging Station provides plenty of ports and power to keep all your devices at 100% capacity. No more peering behind furniture to find an available outlet or unplugging one device to charge another. You can charge up to ten smartphones, Micro-USB tablets, e-readers, and other devices at the same time. This charging station for multiple devices doesn't require a computer, so you can take it anywhere AC power is available. To charge your USB devices, simply plug the included external dual-voltage (100V–240V) power supply into a Schuko outlet, and connect your devices to the available USB ports. The charger protects against overheating, overcurrent and overcharging—in fact, it stops charging as soon as your devices' batteries are at full capacity. A front LED indicates the unit is turned on and receiving AC power.
The 10-port USB charger supports USB Battery Charging (BC) specification v1.2 and delivers up to 5V 2.4A to each port, which is plenty for charging even battery-intensive devices. Adjustable brackets on top of the charger act as storage, providing space to neatly organize devices while they charge. You can adjust the brackets to accommodate the number and size of the devices being charged.
