Description

The PS-606-HG Medical-Grade Power Strip supplies power outside of patient-care vicinities, such as administrative areas or in resident rooms of long-term care facilities that do not use line-operated electrical equipment for diagnostic, treatment or monitoring purposes. Compliant with UL 1363 specifications, this 120V, 50/60 Hz power strip features a NEMA 5-15P-HG hospital-grade plug and six NEMA 5-15R-HG hospital-grade outlets.

The power strip is protected by a antimicrobial powder coating. Antimicrobial protection helps prevent the growth of bacteria, viruses, fungi, mold and mildew. The coating meets the requirements of JIS Z 2801:2000, an international standard for evaluating efficacy in antimicrobial products.

A built-in resettable 15A circuit breaker controls power to all outlets and protects the power strip against overloads. Switchless design prevents the unit from being accidentally shut off. The six-foot (1.8-meter) cord reaches convenient power sources.

Keyhole mounting tabs and flanges make installing this power strip easy. The all-metal housing ensures safety and is guaranteed to last a long time in demanding surroundings.
