10-Port USB 3.0 SuperSpeed Hub with USB Charging

MODEL NUMBER: **U360-010**

Adds 10 new USB 3.0 ports to your computer, laptop, MacBook or Chromebook for connecting hard drives, smartphones and other USB devices.

Features

USB 3.0 Hub Adds up to 10 USB Devices to Your Computer, MacBook or Chromebook This 10-port USB 3.0 hub connects directly to the USB-A port on your computer, laptop, MacBook, Ultrabook or Chromebook. It allows you to use as many as 10 USB devices, such as flash drives, external hard drives, printers, barcode scanners and digital cameras. Each USB port supports Battery Charging v1.2 (BC 1.2) standards for faster charging of mobile devices, such as Apple and Android smartphones and tablets.

Supports SuperSpeed USB 3.0 to Ensure Fast Data Transfers The hub supports USB 3.0 SuperSpeed data transfer rates up to 5 Gbps, which is 10 times faster than USB 2.0. It is especially recommended for high-bandwidth USB 3.0 devices, such as security cameras and high-resolution webcams. Each BC 1.2 port provides up to 1.5A for charging mobile devices. When the hub is connected to AC power, it can double as a USB charger providing up to 2.4A maximum power per port (total power available to all ports depends on the external power supply).

Plug-and-Play Hub Comes Ready to Connect Right Away The U360-010 works with all major operating systems and requires no software or drivers to download and install. The included external power supply comes with four international plug adapters that ensure you can use the hub almost anywhere. Plus, it's backward compatible with previous USB versions, so you can also continue using older peripherals while getting maximum performance from current devices. Overcurrent and overvoltage safeguards protect your connected equipment against damage or data loss due to power surges.

Sleek and Slim Housing Designed for Everyday Workspace Use or Connecting on the Go The compact unit is designed for convenient positioning within your reach, making USB ports accessible while not taking up much workspace. It is also slim enough to pack in your pocket, purse or laptop bag for use in a hotel, conference room or airport.
