# TW:BT-4C-3/8-150, T-Handle Torque Wrench

TW:BT-4C-3/8-150, T-Handle Slip Type Torque Wrench, 3/8 in square drive, 150 lbs-in (16.95 Nm)

## Description

Ruland TW:BT-4C-3/8-150 is a T-handle slip type torque wrench with with a 3/8" square drive size. It is preset at the factory to 150 lbs-in (12.5 lbs-ft, 16.95 Nm) of allowable torque. Upon reaching the specified torque value of 150 lbs-in (12.5 lbs-ft, 16.95 Nm), the torque wrench automatically releases and resets. This prevents tightening above the preset value, even with continued turning. The T-handle profile alllows the user to easily grip the torque wrench and rotate by hand. TW:BT-4C-3/8-150 is manufactured by Seekonk Precision Tools in Massachusetts from chrome plated alloy steel for durability and longevity in industrial environments. It is made in accordance with Federal Specification MIL-STD-45662A and comes standard with an NIST traceable certification. Periodic calibration is required depending on frequency of use.

## Product Specifications

| | | | |
|---|---|---|---|
| **Tool Type** | Torque Wrench | **Handle Type** | T-Handle |
| **Torque Setting** | 150 lbs-in (12.5 lbs-ft, 16.95 Nm) | **Torque Range** | Factory Set |
| **Accuracy** | +/- 4% | **Torque Limiting Direction** | Clockwise |
| **Operation Mode** | Slip Type | **Drive Size** | 3/8 in square |
| **Handle Width** | 8-3/8 in (213 mm) | **Overall Length** | 5-3/8 in (136 mm) |
| **Material Specification** | Chrome Plated Alloy Steel | **Manufacturer** | Seekonk Precision Tools |
| **Country of Origin** | USA | **Weight (lbs)** | 1.375000 |
| **UPC** | 634529222256 | **Tariff Code** | 8204.20.0000 |
| **UNSPC** | 27111715 | | |
| **Note 1** | Shipped with a NIST calibration certificate. | | |
| **Note 2** | Periodic calibration is required depending on frequency of use. | | |
